ABOUT US

17 years on, after an array of successful premium developments completed in Indore, we have succeeded in carving out a niche for ourselves. While the predominant focus has been on urban township projects, we have a diversified portfolio covering key segments of the real estate market which also includes various projects under "Sapphire".

**The company has a singular
Motto, "Work is Worship".**

Since 1995, the company has reached a level where it has been providing its clients with utmost satisfaction in terms of quality. We bank on our strong relationships with our customers, government bodies and trade associations.

In order to achieve the scalability required to undertake large developments, we outsource work to leading domestic consultants in the areas of architecture, design, engineering and construction.
